

"Thank you for conducting the Enneagram for Leaders Workshops with our executive team. The positive feedback was overwhelming and the session had a tremendous impact on our leadership group. We'd love to keep the momentum going... and roll this workshop out to a number of individuals within the corporate office."

Aimee has the ability to hold an audience and to stimulate their creative thinking while encouraging them to feel comfortable expressing themselves. Many who attended her class felt it was a life-changing event for them. After taking her course myself, I agree with the students that she is one of the best instructors I have ever had and hired."

Aimee Bernstein presented an Enneagram workshop at a recent group retreat – and absolutely blew the socks off the entire group. Using a brief survey gathered before the meeting, she preliminarily identified the personality type of each member and built on that during the presentation. She was a fun, energetic presenter who involved everyone in the program. The Enneagram has caused a significant change in how members of the group understand and relate to each other.

Ray Zentis, Chair, The Executive Committee South Florida

"The presentation was fantastic! The presenter's topic was indicative of her presentation and not misleading. She involved the audience and shared personal experiences. It was the best of my three sessions today. Have her come back next year

Aimee's entertaining style and in-depth approach kept attendees highly interested and engaged. I liked her presentation so much I referred her to Human Resources directors from other Ritz Carlton Hotels

"I couldn't believe the personal transformation in some of the people that attended your program. I saw a difference right away in their attitude, self esteem, and energy level."
